Decluttering and Organizing Packages Offered

Let's Get Personal:

This process is for you if you want to look closely at and work through underlying personal obstacles that prevent you from sustaining a calm and clear space. One-on-one counseling, a helping hand throughout the entire process (one room or a whole household) and ongoing support via email and telephone will be provided.

Teach Me Please:

Acquire the skills and knowledge you need to create an organized and de-cluttered space. Look closely at how you and your family use your space and how you can improve in efficiency and functionality. Gain practical skills and create systems that will help you to sustain changes long term. This service can include full, ongoing support or intermittent sessions with 'homework' depending on your budget and needs.

An Extra Pair Of Hands:

Perhaps you know what to do and how to do it, you know exactly how you want things to be but you are busy or have been preoccupied and you simply need extra manpower because there just are not enough hours in the day to tackle it by yourself. We can help!

Just Do It For Me:

Open your doors, tell us what you want or what you need and we will get it done for you! We will need to get a little bit personal in the consultation but after that our only focus is getting the job done for you as quickly as we can.

Pack and Unpack:

Are you moving house? Relocating overseas or downsizing? We can help you to: de-clutter and minimize your load, pack and unpack effectively and efficiently and if needed, organize and manage the move for you.

Coach Me From Afar:

This service is offered via video chat, email and telephone communication. It can be a combination of the Let's Get Personal and Teach Me Please services listed above. Frequency of interaction will depend on your wants and needs specifically.
